Snow mask

Snowline elevation

Estimated snowline elevation: -1000 m

True color image

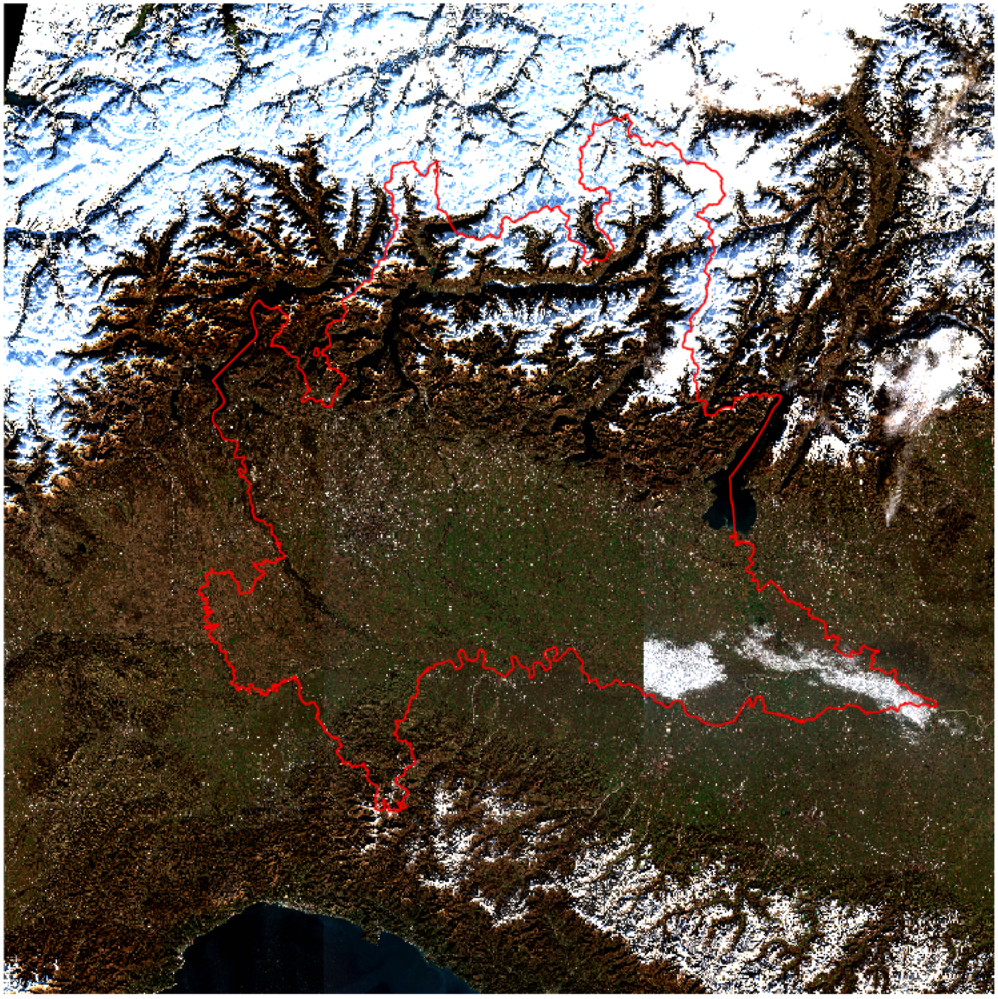

Image dates: 2022-01-11, 2022-01-11, 2022-01-11, 2022-01-11, 2022-01-11, 2022-01-11, 2022-01-08, 2022-01-08, 2022-01-08

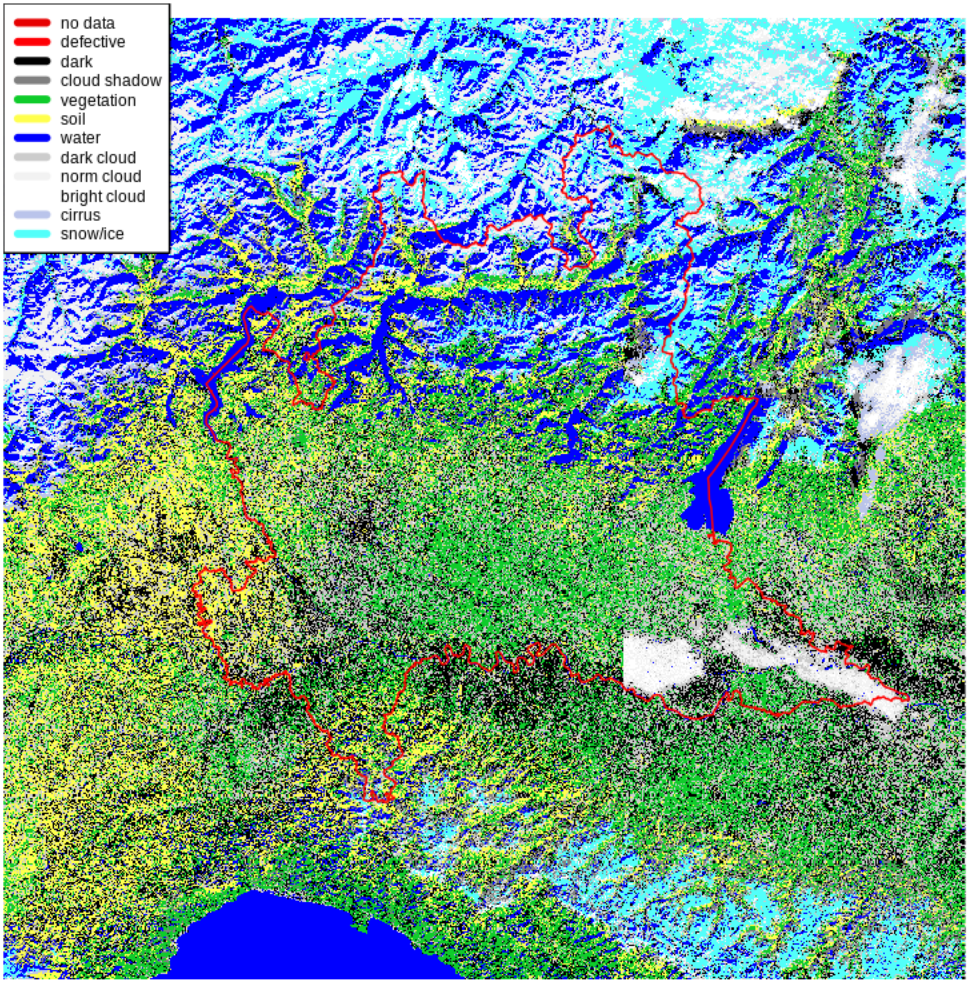
Scene classification



Cloud coverage of images: 0, 0.08, 3.4, 0.01, 0, 3.29, 0, 5.35, 15.61 %

Processed at ALPsolut on 2022-01-12 08:53:37

Snowline estimation: terrain above (light gray) and below (dark gray) estimated snowline.

(A band of 200 meters altitude is colored gray.)

Snow mask: Coordinates classified as snow (white) or no snow (black).

Scene classification: Terrain classification. (Snow detecting is less refined than

in the snow mask, but other types are recognized as well.)

True color image: Natural colors by combining the red, green, and blue bands.
